

14" Throat

Mark I Series™

- Original maintenance-free cam design, over 35 years of field tested perfection.
- Traditional Hinge set up for 3/4" standard bend.

Maintenance-free cam design locks on a wide variety of metals and thicknesses without adjustments.

Easy hemming (180 degree bends).

Full loop bending handle with dual lifting points allows one handed bending.

Mark I Series™- Residential Heavy Duty

- HD model adds castings and bending handle (10'6", 12'6" and 14'6" models), better suited for heavy use and thicker aluminum (gutter coil).
